

<p>Red-throated Diver Black-throated Diver Great Northern Diver White-billed Diver Little Grebe Great Crested Grebe Red-necked Grebe Slavonian Grebe Black-necked Grebe Pied billed Grebe</p>	<p>scarce breeding, also winter and passage migrant occasional birds in summer, more frequent in winter. last bred in 1972 winter & passage, birds in breeding plumage regularly seen in spring & autumn vagrant, very occasionally seen off the north coast or large sea lochs. breeds, small numbers, in sheltered lochs in winter. Mishnish, Lochdon, Salen. there have been unconfirmed reports but no firm sightings very scarce winter passage, recorded on sea at Grasspoint and Laganulva. winter visitor peak about 25 birds, winter on Loch na Keal and Loch Ba very scarce winter birds. last record (juvenile) in Sept 2005 on Loch na Keal vagrant 2 records, 1998 Mishnish Lochs & 2011 Salen Bay April</p>
<p>Fulmar Cory's Shearwater Great Shearwater Sooty Shearwater Manx Shearwater Storm Petrel Leach's Storm Petrel Northern Gannet Great Cormorant Shag</p>	<p>common but localised breeding. colonies at Calliach & Carsaig very scarce, Calliach point, Treshnish point best areas for sea watching Sept/Oct occasionally seen west of Coll. Check Calliach point passage vagrant recorded in July/Oct off headlands breeds on Rhum. passage birds in spring and autumn Cailiach point, Treshnish summer visitor, small numbers breed on Treshnish Isles scarce but regular reports in autumn off the west coast around coast April-Oct. Nearest breeding colony is Ailsa Craig, South Ayrshire. resident breeding, less numerous than Shag very common resident breeding on islands</p>
<p>Bittern Black Stork Snowy Egret Little Egret Cattle Egret Grey Heron Spoonbill Mute Swan Whooper Swan Pink-footed White-fronted Greylag Goose Snow Goose Canada Goose Barnacle Goose Brent Goose</p>	<p>no recent records for this species Vagrant. a single bird, first Argyll and Mull record at Dervaig on 26th May 2013 Accidental. Balvica (mainland Scotland, south of Oban) Oct 2001 1st UK record 2011 first confirmed record of this species a single bird at Loch Beg First record of this species was in 2011, a single bird at Croig widespread resident breeding in all areas very rare passage migrant 2 birds at Lochdon July 2010, and Dervaig in 1994 common breeding in sheltered areas on sea lochs passage winter & spring, single birds on Loch Assapol, 2005/06, Pottie 2009 very small numbers in winter and spring passage, many fly over Mull winter visitors and passage bird, usually found at Fidden in small flocks large resident breeding population around the coast occasional birds on passage are blown off course, east on to Mull in Autumn 2007 a breeding species now. flocks with Greylags & Barnacles in winter winter flocks (350+) regularly seen at Fidden and over winter on Inch Kenneth scarce winter passage bird, small flocks & family groups at Fidden area</p>
<p>Shelduck Eurasian Wigeon American Wigeon Gadwall Eurasian Teal Green-winged Teal Blue winged Teal Mallard Pintail Garganey Shoveler Pochard Tufted Duck Greater Scaup</p>	<p>small breeding population, absent from mid August to late October scarce & local breeding species, widespread winter visitor no Records very scarce species, few records usually in winter months on coastal areas. widespread winter visitor on all lochs, uncommon breeding no records a single record of a drake at Killiechronan, Loch na Keal in May 2010 resident breeding most lochs and around the coast very scarce birds passing through very scarce. 2011 a single record of a pair at Kintra 18th April 2011 rare, a pair were recorded 13th April 2004 at Pennyghael very few records, very occasional birds on Loch Assapol scarce resident breeding on Loch Pottie and Assapol occasionally elsewhere scarce winter visitor & passage migrant, occasionally on Loch Scidain, Pottie.</p>

<p>Lesser Scaup Common Eider King Eider Long-tailed Duck Common Scoter Surf Scoter Velvet Scoter Goldeneye Smew Red-breasted Merg Goosander</p>	<p>no Records resident breeding all around the coastal area, numbers have declined. vagrant last (and only) record Tobermory Bay on 27th March 2000 uncommon winter occasionally on larger sea lochs, Scridain, Loch na Keal scarce winter visitor, occasionally in Sound of Mull and larger sea lochs vagrant in spring. Mull has had three records, 2 female and one stunning male scarce winter birds of N coast. Loch na Keal and Scridain most likely sites scarce winter visitor, over winter on Lochs. Loch na Keal can hold up to 50 birds a single bird (red head) was on Loch Pottie in May 2004, our only record. very common and numerous resident breeding on all sea lochs scarce breeding. Loch Cuin and Aros estuary, Lochdon & other sea lochs</p>
<p>Red Kite White-tailed Eagle Pallid Harrier Hen Harrier Marsh Harrier Goshawk Sparrow hawk Buzzard Rough-legged Buzzard Golden Eagle Osprey Kestrel Merlin Peregrine</p>	<p>scarce passage migrant usually get a bird over during year, mostly spring time. resident breeding species Vagrant. 20th Sept 2011 first record of a juvenile over Pennyghael estate. regular breeding species in suitable habitats. rare passage, usually juveniles, last one over Grasspoint in May of 2011 regularly reported, not confirmed, detailed description and photo is required widespread resident breeding, terrorising most bird tables resident most common breeding raptor over all of the island reported, a full and detailed description and photo is required resident breeding species regular spring passage visitor, no breeding records resident breeding species, numbers have increased scarce breeding, under recorded, passage birds in winter scarce breeding, can be seen all year</p>
<p>Red Grouse Quail Ptarmigan Pheasant Golden Pheasant Water Rail Spotted Crake Corn Crake Moorhen Coot Oystercatcher Ringed Plover Dotterel American Golden Plov Golden Plover Grey Plover Lapwing Knot (Red Knot) Sanderling Little Stint Temminck's Stint Ruff Pectoral Sandpiper Curlew Sandpiper Purple Sandpiper Dunlin</p>	<p>very localised a few resident breeding birds irregular summer visitor, only a few records of calling birds, fewer sightings resident breeding, sparse & local distribution above 2k ft very common widespread breeding species very small introduction mainly around the Gruline/Knock area scarce breeding, few records, Dervaig, reed bed Aros Park lochan v scarce. last on Iona, May 2014, earlier Ross & Dervaig reed beds in 2005 scarce breeding summer visitor. Iona and now other areas of Mull very scarce, even rare, the last record April 2007 at Dervaig reed beds very scarce, even rare, last recorded at Dervaig in March 2009 resident breeding widespread...logo of the Isle of Mull Bird Club breeding. large winter flocks on mud flats. Loch Beg/Lochdon scarce passage probably under recorded. no breeding records, Top of Ben More vagrant. single bird was the first record Loch Beg 6th Sept 2005 Bryan Rains few breeding, winter & spring passage, numbers at loch Beg in winter-spring few records, occasional passage birds in autumn/spring Fidden most productive. localised resident breeding species. Fidden and other coastal areas. uncommon passage migrant, few records received passage in April/May & August, with Dunlin, Uisken and Ardalanish Beaches very scarce. last record April 2003 Lochdon v scarce passage migrant. only 3 Argyll records, Fidden in Sept 1985 very scarce migrant last recorded Fidden 6th Oct 2004 rare north american winter-spring visitor, a few records scarce passage migrant, check out all winter-spring wader flocks scarce spring & winter passage. small numbers overwinter at Laine Sgeir Common spring & winter passage probable breed in 2004</p>

<p>Buff-breast Sandpiper Jack Snipe Snipe Woodcock Black-tailed Godwit Bar-tailed Godwit</p>	<p>only one Mull record 27th May 2011 at Fidden, scarce, under recorded passage migrant. Calliach is best site. widespread & locally common breeding widespread & under recorded resident breeding scarce passage spring migrant, Loch na Keal, Lochdon and Fidden. recorded throughout the year, passage migrant</p>
<p>Lesser Yellowlegs Whimbrel Curlew Spotted Redshank Redshank Greenshank Green Sandpiper Wood Sandpiper Common Sandpiper Turnstone Grey Phalarope Red necked Phalarope</p>	<p>North American Vagrant. no confirmed records accepted regular passage migrant Spring and Autumn, all coastal areas widespread resident breeding species very rare passage migrant with no Mull records common breeding, passage migrant & wintering Has bred, passage migrant, first bred on Mull 2000 very scarce passage autumn, last Sept Grasspoint 2005, scarce passage migrant, occasional birds at Lochdon in spring. widespread & common summer visitor breeding common passage migrant, most coastal areas, passage migrant autumn & winter. last in April 2007, on sea in Loch na Keal two records on 23rd May 2011 at Killiechronan & 2012 Pennyghael.</p>
<p>Pomarine Skua Arctic Skua Long-tailed Skua Great Skua Little Gull Sabine's Gull Black-headed Gull Ring-billed Gull Common Gull Herring Gull Yellow-legged Gull Iceland Gull Glaucous Gull Great B-backed Gull Lesser B-backed Gull Ross's Gull Kittiwake Sandwich Tern Common Tern</p>	<p>scarce migrant passage during May, 20 birds seen off Craignure/Oban Ferry scarce but most common Skua often seen off shore nor occasional birds seen out at sea to the north of the island passage & summer visitor, breeding on Treshnish Isles occasional birds recorded. possibly under reported vagrant, a beautiful 1st summer bird was at Killiechronan in May 2011 resident with patchy localised breeding areas vagrant, has been recorded at Oban harbour & Mishnish Lochs & Tobermory. widespread and common resident breeding widespread breeding species from March to September very rare. there have been several reports but no accurate records for Mull scarce regular winter visitor usually in January/February scarce but regular winter visitor usually in December/February common & widespread resident breeding widespread summer visitor breeding on coastline very rare, a single bird at Fidden 6th Oct 2004, A Spellman /Pam Arthur Brown breeding on Treshnish Isles, normally strictly marine uncommon passage migrant locally common summer visitor breeding</p>
<p>Arctic Tern Little Tern Forsters Tern Guillemot Razorbill Black Guillemot Little Auk Puffin Rock Dove Stock Dove Woodpigeon Collared Dove Turtle Dove</p>	<p>Summer visitor breeding usually with Common Terns very scarce passage , breeding confined to Coll/Tiree single bird Oban Harbour Jan 2003. 1st for Argyll common, breeding, large rafts of mixed birds in August locally common breeding species common breeding, coast & islands in sea lochs. Oban pier has breeding colony irregular storm bound winter visitor, last 19th Dec 2001 Loch na Keal very localised breeding species, breeding on Treshnish Isles resident breeding localised, "true birds" can be found at Fidden & the Ross area very scarce & local resident, few records common resident breeding widespread population of resident breeding birds very scarce summer visitor. single records from Salen, Treshnish Point &</p>

<p>Cuckoo Barn Owl Tawny Owl Long-eared Owl Short-eared Owl Nightjar Swift Kingfisher Bee-eater Hoopoe Wryneck European Roller Green Woodpecker Grt Spot Woodpecker</p>	<p>common summer visitor breeding, main host Meadow Pipit resident breeding, probably under recorded widespread resident breeding scarce resident breeding almost certainly under recorded breeding visitor, numbers fluctuate dependant on vole population recorded in May-June 2006, & in May 2007 & May & June 2008 at Balmeanach scarce passage migrants in May, no breeding records v scarce, occasional birds in winter as young disperse to coastal areas rare passage migrant Last record, a single bird in Glen Bellart 27th May 2014. very scarce last recorded July 1997 at Grasspoint very scarce passage migrant last at Haunn 2011 only two records Mega Rare, on 16th June 2011, one was found in Glen Aros by John Bannon rare, single birds in 2007 at Aros Park. Lochdon Frisa and Garmony. resident, breeding, our only breeding woodpecker</p>
<p>Skylark Sand Martin Barn Swallow House Martin Tree Pipit Meadow Pipit Rock Pipit Grey Wagtail Pied Wagtail Yellow Wagtail Blue headed (M. fl fl) Waxwing White throated Dipper Wren Dunnock</p>	<p>widespread breeding, many emigrate in winter regular summer visitor breeding widespread summer visitor breeding less numerous summer visitor breeding common summer visitor breeding abundant summer visitor breeding, main host for Cuckoo common resident breeding common resident breeding species widespread and common resident species a single record of a bird at Kintra in May 2010, The first record for Mull. a bird was photographed on 24th April 2013 at Craignure irruptive winter visitor occasionally in great flocks on berried trees resident breeding species on many small burns & rivers common resident breeding species abundant resident breeding species</p>
<p>Robin Black Redstart Redstart Whinchat Stonechat Wheatear Ring Ouzel Blackbird Fieldfare Song Thrush Redwing Mistle Thrush Grasshopper Warbler Sedge Warbler Lesser Whitethroat Whitethroat Garden Warbler Blackcap Wood Warbler Common Chiffchaff Willow Warbler</p>	<p>widespread resident breeding a female at Fionnphort April 2007 is only the second record for Mull localised summer visitor breeding in oak woodlands common summer visitor breeding widespread resident breeding abundant summer visitor breeding v scarce summer visitor, confirmed breeding in 2013 abundant common resident breeding passage winter migrant often huge flocks on berried trees common resident breeding species passage winter migrant with Fieldfare on berried trees widespread but thinly distributed resident breeding summer visitor breeding locally in suitable areas summer visitor breeding locally in most areas very scarce. 2009 one at Loch Buie 23rd June, previously one on Iona in 1965. summer visitor & common breeding species scarce summer visitor breeding numbers fluctuate scarce summer visitor breeding species scarce summer visitor breeding often over winters summer visitor breeding common in suitable woodland abundant summer visitor breeding species</p>

<p>Goldcrest Firecrest Spotted Flycatcher Pied Flycatcher</p>	<p>common breeding species and passage migrant 13th Nov Ledaig, tobermory first record for Mull Ashley Howe & Ewan Miles. Usually an abundant summer visitor breeding occasionally seen on passage in the spring in suitable habitat</p>
<p>Long-tailed Tit N'thern Long tailed tit Coal Tit Blue Tit Great Tit Crested Tit Trecreeper Nuthatch Golden Oriole Red-backed Shrike Lesser Grey Shrike Great Grey Shrike Woodchat Shrike Eurasian Jay Black billed Magpie Red billed Chough Jackdaw</p>	<p>common resident breeding, flocks up to 30+ birds in winter 3 birds down the pier road at Salen in November of 2010. a first record for Mull abundant common resident breeding species abundant common resident breeding species abundant common resident breeding species very rare Only one Mull record 19th Oct- 9th Nov 2002in Tobermory garden common resident breeding species rare. 2008 10th April at bird feeder in a Calgary garden, a first record for Mull. rare, one Mull record adult male found dead June 1989 at Burgh by Fossil tree rare passage migrant last record in June 2013 along Glen Bellart-Dervaig Road rare passage migrant there is an old record from 1974 No records. A larder was found at Dervaig in March 2009 No records scarce now breeding in small numbers. Lochdon, Dervaig & Frisa areas are best. scarce single birds seen most years very scarce, a pair a Scoor have not been seen for many years occasional birds uncommon resident species, on Iona around the Abbey</p>
<p>Rook Carrion Crow Hooded Crow Raven Common Starling Rose-coloured Starling House Sparrow Tree Sparrow Common Chaffinch Brambling Greenfinch Hawfinch Goldfinch Siskin Linnet Twite Lesser Redpoll Common Crossbill Common Rosefinch Common Bullfinch Snow Bunting Yellowhammer Reed Bunting Lapland Bunting Ortolan Bunting Corn Bunting Rustic Bunting</p>	<p>Breeding, there is a rookery at Assapol and on Iona occasional birds have been seen briefly on Mull abundant common resident breeding species common resident breeding species common resident breeding species very scarce, records fromTobs/Dervaig (2009) & Buessian in 2008 abundant resident breeding species very scarce. a bird on Iona (May) and at least two at Griburn in June abundant resident breeding species uncommon winter visitor, with flocks of other finches common resident breeding species 4 records, Treshnish 2009 & 2010 & Killiechronan & Pennyghael in May 2014 common resident breeding species, mixed flocks in winter common resident breeding, visits gardens in winter resident breeding, flocks autumn & winter, Ross of Mull and Iona best areas. small localised resident breeding species, flocks in winter. Fidden is good. localised resident breeding, numbers fluctuate each year locally common resident breeding species vagrant 3 records, 2009 Kellan Mill. 2011 Ardrioch Farn Dervaig, 2013 Lochdon locally common resident breeding species winter visitor in small numbers, in colder weather common resident breeding, emigration in autumn resident breeding species very scarce Autumn passage birds occasionally found on beaches. vagrant. a bird at Craignure on 9th May 2009. First record for Mull and Argyll extremely scarce. Ardalanish farm area is probably the best area. Mega Rare, one was found and photographed on Iona May 2014, a first record</p>
